

Karen L. Randle, BSc (Hons)

Senior Consultant

Karen has 12 years of experience in a variety of sectors within the UK Construction Industry, working with Clients, Contractors & Consultants.

Using her vast previous experience as a site manager, Karen works closely with project teams providing planning services to develop, monitor & handover successful projects.

From preconstruction through to completion, Karen is involved in all aspects of project delivery from planning permission to handover & commissioning.

Karen has helped steer many problematic projects to completion, reprogramming to focus on critical path activities.

Following project completion, Karen has also assisted on successful contract disputes & data analysis for claims.
