

Stuart Davey, MSc, MCI Arb

Director

Stuart Davey has 30 years' experience in the engineering and construction industry, which includes dispute resolution producing expert quantum and contract claim analysis reports. He has experience internationally with disputes under FIDIC and in the UK under JCT and NEC contracts. Stuart has been appointed as expert witness numerous times in relation to quantum and disruption aspects of project disputes in adjudication, international arbitration, and major project DABs. He has given written and oral testimony (in person) in international arbitration.

Stuart has worked on projects and disputes located in the UK, Europe, Middle East, Africa, Asia, and South America. He has experience across a broad range of project sectors including, petrochemical, power generation, transport infrastructure projects, offshore construction, shipping, government, and public sector projects.

In his early career, Stuart was a quantity surveyor with contractors Costain and Norwest Holst, gaining a practical understanding of site administration and claims handling. Stuart has presented internationally on approaches to formulating disruption claims and cost recovery.
