

## Amar Majid, MRICS, MCI Arb, MCI OB

### Senior Consultant

T: +44 7144 02995 E: amajid@delta-cgi.com

**Amar Majid** is a Chartered Surveyor with over 10 years' experience in infrastructure and construction projects in the UK and internationally. He has advised on large civil infrastructure projects, providing quantum support and assessing claimed damages. In addition, he has worked on numerous domestic and commercial new builds and refurbishment projects. Known for his ability to objectively analyse complex issues and challenge cost claims, Amar offers clients clear, reasoned advice. His proficiency in understanding costs ensures fair and justified claims, making him a reliable consultant.

### Selected Project Experience

- ▶ Quantum support to Expert Witness on a \$304 million loss of productivity claim by an international contractor for concrete operations on a canal extension in South America. The claim involved factors such as changes in the concrete lifting sequence, project acceleration, equipment issues, and unforeseen conditions.
