

Amar Majid, MCI Arb

Senior Consultant

T: +44 204-525-4261 E: amajid@delta-cgi.com

Amar Majid is a quantity surveyor with over 9 years' experience within the construction industry predominantly working on domestic and commercial new build and refurbishment projects in the UK. He has more recently provided quantum support on large commercial damages claims on civil infrastructure projects in the Americas, and power projects in the UK.

He has worked in all capacities as a quantity surveyor with an increasing focus on assessing claimed damages for arbitration claims. He is proficient in making sense of and challenging cost claims. He is highly regarded by his clients for analysing complex issues objectively and providing reasoned advice.

Selected Project Experience

Project Management and Consulting

- ▶ Commercial management of associated civils work for runway resurfacing at Gloucestershire Airport, through to agreement of final account. NEC4 Option B.
