

Tatyana Gans, CPA

Director

T: +1(646) 396 6103 E: tgans@delta-cgi.com

Tatyana Gans is a Director in Delta Consulting Group's Insurance & Recovery practice. She brings more than 17 years of experience in forensic accounting, specializing in complex insurance claims, fraud investigations and litigation support. Her expertise includes economic damage quantification, including business interruption, property damage, cyber, extra expenses, stock and contents, product recall, third-party liability, fidelity and subrogation. She works with policyholders to quantify losses, resolve claims efficiently and helps clients recover quickly. Her industry experience includes automotive, casinos, fast food, farming, food processing, furniture, garment, grain processing, healthcare, hospitality, lumber, manufacturing, medical, professional services, retail, stock brokerage and textiles.

Prior to joining Delta, Tatyana was a Manager at a Big Four accounting company, where she led major engagements and supported over \$1 billion in claim submissions. She is a proven leader who drives revenue growth, builds strong client relationships and delivers clear, results-focused solutions.

Selected Project Experience

► Large Paint Manufacturer

Following an explosion and fire at a manufacturing facility, led preparation and submission of business interruption, extra expense and property damage claims. Built financial models to quantify losses from shutdown, supply chain disruption and remediation. Submitted claims exceeding \$50M.

► Luxury Hospitality

Calculated losses for high-end resort properties impacted by a California mudslide. Assessed impacts from closures, physical damage and restricted access due to flooding and debris flows. Worked with CFOs, insurers and ownership to support claim development and resolution.

► Rail / Large Equipment Engine Manufacturer:

Led preparation and submission of a complex business interruption claim after an equipment explosion at a heavy manufacturing facility. Coordinated data collection and loss calculations tied to shutdown, production disruption and operational inefficiencies.

► Steel Recycling Plant

Managed property damage and extra expense claims following a major fire at an industrial recycling facility. Partnered with the CFO to assess financial impact and develop supporting analyses aligned with remediation efforts, totaling about \$22M.

► Egg Farm

Calculated losses from a multi-state Salmonella outbreak tied to a large product recall. Assessed impacts from negative publicity, reduced demand and supply chain disruption. Worked with legal counsel to support defensible positions, reducing about \$30M in non-covered exposure.

► Multi-location Wholesaler

Calculated and supported claims involving millions of dollars in losses across multiple locations, coordinating financial data and claim support.

► Catastrophic Event Claims

Analyzed hundreds of claims arising from large-scale events including Joplin Tornado, Hurricane Sandy, Irene, Helene, California Wild Fires/mudslides, and others supporting economic loss quantification and claim strategy across multiple engagements

► Cyber and Ransomware

Led analysis of a high volume of cyber and ransomware-related losses annually, quantifying financial impact and supporting insurance recovery.

► Fraud and Fidelity Investigations

Conducted fraud and fidelity investigations for various industries including farming, car dealerships, funeral homes, casino, and retail, analyzing financial data, identifying irregularities and supporting findings for client and legal use.
