

Vaishnavi Simalkar

Consultant

T: +1 (332) 910 5038 **E:** vsimalkar@delta-cgi.com

Vaishnavi Simalkar is a forensic accounting and insurance claims professional who supports complex property damage, business interruption, economic loss and insurance recovery matters. As a Consultant in Delta Consulting Group's Insurance & Recovery practice, she assists clients with the preparation, analysis and evaluation of commercial insurance claims, leveraging strong financial analysis, claims quantification and data management capabilities to support claim recovery and dispute resolution efforts. She has experience analyzing financial and operational data, preparing damage calculations and developing financial schedules for matters involving business interruption, lost profits and property-related losses across a range of industries.

Prior to joining Delta, Vaishnavi supported insurance claims and recovery engagements at a large global consultancy in both the United States and India, where she assisted with claim quantification, litigation support and forensic accounting analyses. Her background also includes experience in insurance brokerage, reinsurance and policy coverage analysis, providing her with a well-rounded understanding of the insurance and claims process. She is recognized for her analytical approach, attention to detail and ability to deliver clear, well-supported financial analyses in complex claim environments.

Selected Project Experience

- ▶ Prepared financial analyses and claim calculations for complex property damage, business interruption and lost profits insurance claims.
- ▶ Analyzed large volumes of financial and operational data to support claim quantification and improve claim defensibility.
- ▶ Developed financial schedules, damage assessments and client-ready deliverables for insurance recovery and forensic accounting engagements.
- ▶ Assisted with litigation and arbitration matters by organizing documentation, preparing analytical exhibits and supporting economic damage evaluations.
- ▶ Reviewed financial records and claim documentation to assess coverage impacts and support insurance recovery efforts.
- ▶ Utilized advanced Excel modeling and data analysis techniques to streamline claim calculations and improve reporting efficiency.
- ▶ Supported the preparation and review of business interruption calculations and economic loss analyses across multiple industries.
- ▶ Collaborated with multidisciplinary teams to validate financial information, strengthen claim documentation and support engagement conclusions.
- ▶ Managed and performed detailed document reviews, data collection and financial analysis for insurance claims and forensic accounting matters.
- ▶ Assisted policyholders with claim documentation, loss analyses and recovery strategies to improve the quality and completeness of claim submissions.
