

Eugenio Nanni

E: eugenio@osbornes.com

Eugenio Nanni is a Consultant at Osborne Partners, A Delta Consulting Group Company. He specializes in valuation and damages assessment in complex commercial and investor-state disputes. His experience includes business and equity valuation, shareholder disputes, lost profits and the valuation of financial instruments and investments.

Eugenio has worked across a range of industries, including oil and gas, financial services, infrastructure, healthcare, telecommunications, real estate and construction. His experience includes developing sophisticated valuation analyses using option-pricing methodologies and supporting the preparation of expert reports in disputes involving government measures, transactions and shareholder interests across multiple jurisdictions.

Selected Project Experience

- ▶ Prepared an expert report in an investor-state arbitration assessing damages arising from the breach of an oil and gas production sharing agreement in Central Asia.
- ▶ Valued a portfolio of financial instruments, including warrants, convertible loans and shares, in proceedings against fund managers using a modified Black-Scholes option-pricing model.
- ▶ Prepared an expert report in a shareholder dispute arising from the blocked acquisition of a controlling stake in a major healthcare provider in India.
- ▶ Prepared an expert report assessing losses arising from the expropriation of an oil and gas distribution network in Eastern Europe.
- ▶ Prepared expert reports in an investor-state dispute involving the failure to develop a tourist resort in a Southern European coastal region.
- ▶ Valued a Middle Eastern industrial plant, including a real option component modeled using a Black-Scholes option-pricing model.
- ▶ Prepared an expert report assessing alleged losses arising from unlawful conduct by a national government involving a high-growth telecommunications company in Central Asia.
- ▶ Valued a minority interest in a Chinese real estate company in connection with a Cayman Islands take-private transaction.
