He has particular experience analyzing blockchain and digital assets, including the valuation of equity interests and digital utility tokens.

Selected Project Experience

► CRYPTOCURRENCY AND DIGITAL ASSETS

- Assisted in preparing a respondent expert report in a dispute involving a cryptocurrency accelerator and an early-stage blockchain platform. Assessed alleged losses related to the claimant's contingent rights in equity shares and digital utility tokens and analyzed cryptocurrency-specific valuation methodologies.

► OIL AND GAS

- Assisted in valuing claims arising from a joint venture dispute between an Indian manufacturing and pipe-coating company and a Malaysian conglomerate involving a Middle East pipe-coating facility.

► REAL ESTATE

- Assisted in preparing a respondent expert report in a dispute between a Saudi fund and a European fund involving a mixed-use real estate development in Portugal and claims concerning the potential value of the property.

► INVESTOR-STATE DISPUTES

- Assisted in preparing a second expert report in an investor-state dispute involving alleged losses arising from foreign exchange and trade restrictions. Assessed damages and valued a wholly owned subsidiary of a multinational consumer goods company.
- Assisted in valuing damages in litigation against an African country involving alleged losses arising from the seizure of agricultural commodities.
