

Maide Gültekin

E: maide@osbornes.com

Maide Gültekin is a Senior Consultant at Osborne Partners, A Delta Consulting Group Company. She specializes in valuation, damages assessment, competition and regulatory analysis in international disputes and advisory matters. Her experience includes assessing economic and financial issues, quantifying losses and evaluating the impact of regulatory and market developments.

Maide has worked across a range of industries, including metals and mining, regulated utilities, telecommunications, oil and gas, food, consumer electronics and real estate. Her experience includes international arbitration, investment disputes, regulatory and competition matters and valuation assignments across various regions.

Selected Project Experience

- ▶ Prepared expert reports assessing damages relating to a formerly state-owned oil and gas company in a European country, including assessment of losses and analysis of market and comparable company data.
- ▶ Prepared an expert report in a commercial dispute between two Middle Eastern companies concerning a long-term gas sale and purchase agreement, including quantification of an indemnity claim.
- ▶ Assessed potential losses arising from claims concerning the failure to obtain a port site for development and alleged unfair competition affecting the claimant's ferry operations in the context of state interference with privatized ferry operations in an Eastern European country.
- ▶ Prepared an expert report in an investment arbitration concerning a company operating in the food sector, including assessment of losses arising from the alleged expropriation of assets and breaches of the fair and equitable treatment standard.
- ▶ Valued a major regulated water utility on a going-concern basis in the context of restructuring proceedings in the UK, including consideration of the applicable regulatory framework.
- ▶ Prepared an impact assessment study on the effect of new EU directives on the remuneration of authors and performers across several EU countries, including analysis of the potential economic and financial implications.
- ▶ Prepared expert reports in an ICC arbitration concerning alleged production issues within the supply chain of a consumer electronics product. Analyzed market effects for products sold and costs associated with addressing the alleged issues for products retained within the supply chain.
